What is Mango Languages?

Mango is an online language learning system available to you through your local public library. Mango offers access to 70+ foreign language courses and 19 English courses taught completely in the user's native language.

Each lesson combines real life situations and audio from native speakers with simple, clear instructions. The courses focus on 4 key elements of language learning: vocabulary, pronunciation, grammar, and culture.

Mango Languages offers multiple courses in some languages like Russian or Spanish. Spanish courses are offered on how to use the language in a legal, text talk, medical or romance scenario.

Languages to Try!

These are just some of the foreign language courses you can try on your own time:

- Arabic
- Danish
- Greek
- Norwegian
- Romanian
- Slovakian
- Hebrew
- Finnish
- Icelandic
- Pirate
- Gaelic
- Ukrainian
- Dutch
- German
- Japanese
- Punjabi
- Spanish
- Yiddish

...and even more!

Access Mango Languages

It's easy to get started! All you need is a library card and an internet connection!

Go to the eResources section of the Peace Library System website and select Mango Languages. From there, you will need to login to TRAC with your library barcode and PIN. Select Peace from the list of systems and you will be brought to the Mango Languages page. From there, you can create your account on Mango Languages simply with a name, email and password.

Select a Course

Use the search bar and the Language catalogue to find courses. The basic course for languages is called Mango Conversations. When you launch these, you can take a placement test to find out what your language skills are. Courses that you haven't started will have a green bar and say "Get Started" and courses you are working on will have an orange bar and say "In Progress".

You can give your input in the Mango Labs for what languages you want to learn next!
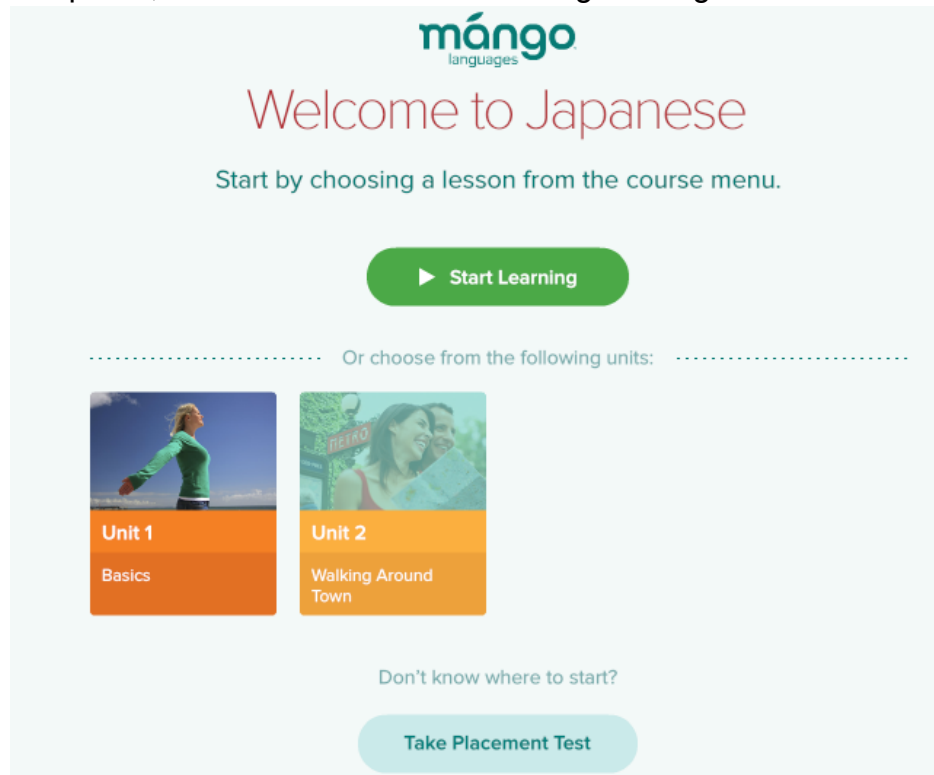

Software & Devices

To use Mango Languages on your computer, you just need to have Javascript enabled and the most recent version of Adobe Flash.

To use Mango Languages without an internet connection, you can download the Mango Languages app to your Apple or Android devices. All you have to do is select a language course and click the download button below the units and lessons that will appear.

Get Talking

Take the placement test or start at the beginning with Unit 1, Chapter 1, Lesson 1. Use the arrows to go through the lessons.

Extra Tips

After the narrator reads a slide, the voice comparison button will appear. Use your microphone to compare your pronunciation to that of the narrator.

Click the sound button to hear a slower, more articulated pronunciation of your word or phrase. Click it as many times as you need.
