

MISSION: MARS

Steps Toward the First Human Journey to the Red Planet

Pascal Lee, Ph.D

Director, NASA Haughton-Mars Project

*Mars Institute, SETI Institute,
& NASA Ames Research Center*

Tuesday,
June 5,
6:00 PM

Pascal greeted by his red heeler King Kong after a spacesuit test in the Arctic. (Credit: NASA HMP)

The first human mission to Mars will be humanity's greatest space adventure in the 21st century. Dr. Lee will discuss progress made around the world, from the Arctic to Antarctica and from basement labs to the International Space Station. He will examine the what, why, how, when, and who of the first human mission to Mars.
